

“We get to buy more video games ’cuz my dad got this car.”

This is Jimmy, and he was a little worried about his dad buying a new car. Jimmy was afraid it meant less money for new video games.

But Jimmy’s dad told him the new car payments were actually less than the payments they were making on the old car. The first thing out of Jimmy’s mouth was, “So we can still buy some video games?” And his dad answered, “Now we can buy *more* video games!”

How about you? Could you get a new car and lower your monthly payments? You may never know unless you call your local dealer and see for yourself.
