

# SUSPEND THE FET

## Help Protect Jobs and Speed the Economic Recovery

**PANDEMIC**

Disrupts market

**12% FET**

Depresses sales

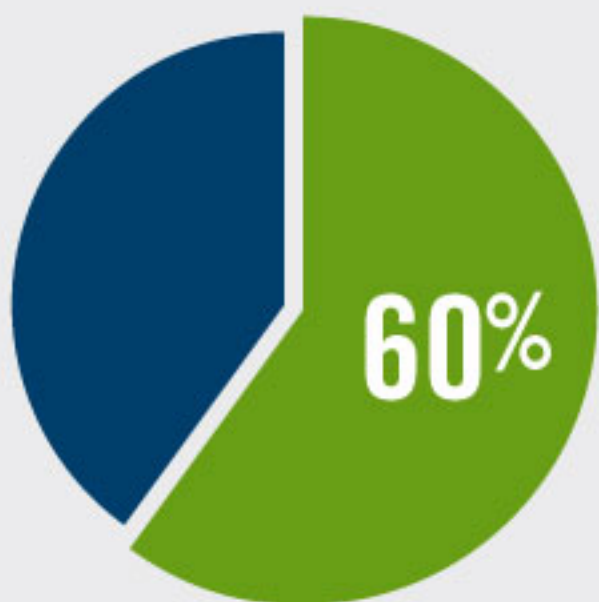

Predicted decline in 2020 Class 8 truck sales because of the pandemic

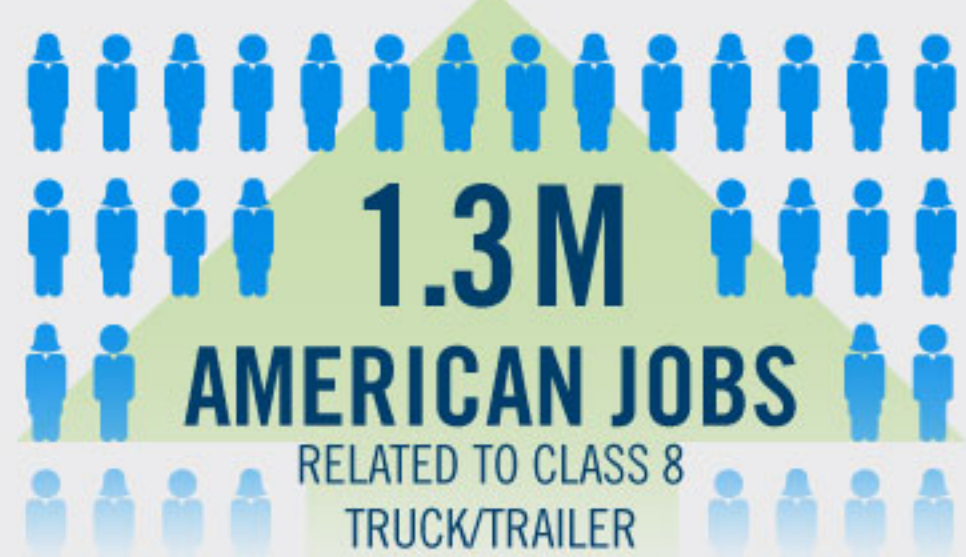

**SUSPEND FET**

Suspending the FET would immediately spur the purchase of newer, cleaner, safer heavy-duty trucks and trailers

60% of fleets are likely to buy new trucks/trailers if the 12% FET were suspended

FET suspension would spur the economy and bolster American jobs

**Include FET Suspension in an Economic Relief Bill to help jump-start the economy and protect American jobs.**

For more information visit [www.nada.org/ATDLegislative](http://www.nada.org/ATDLegislative)

**MODERNIZE THE TRUCK FLEET**  
CLEANER • SAFER
