Join us in Washington to urge Members of Congress to support FET Repeal and prevent overly stringent regulations from slowing the deployment of cleaner and safer trucks.

Attend the 2023 Legislative Fly-In so your voice can be heard in the halls of Congress. Your elected officials will make better, more informed decisions about policies impacting the trucking industry once they hear directly about the challenges facing your business.

Also join us for the inaugural ATD Truck Industry Forum, and hear from key business leaders offering their views on the challenges and opportunities facing the truck industry, as well as expert speakers discussing the legislative and regulatory policy landscape.
